

# Refurbished gearboxes.

Economical and environmentally friendly, a sound choice.

#### **A cost-effective solution.**

Buying a new gearbox for your machine can be very costly, which is why Kalmar offers a range of refurbished gearboxes for any brand of reachstackers, empty container handlers, terminal tractors or forklifts.

Compared to buying a new gearbox, a Kalmar refurbished gearbox will not only save you money, it will also help reduce the environmental impact of your operations, lowering your costs and carbon footprint.

#### **Twelve-month guarantee.**

Each gearbox has been completely overhauled, then thoroughly inspected and tested in highly demanding conditions, to ensure it will operate like new when fitted in your machine. All our refurbished gearboxes are backed by a twelve-month guarantee for complete peace of mind.

#### **An effective alternative.**

Kalmar refurbished gearboxes are an ideal alternative to a new gearbox when your machine is at least half way through its planned lifecycle.

#### **Immediate delivery.**

Kalmar keeps a wide range of refurbished gearboxes in stock that can be delivered and installed quickly by our team, as we know that machine availability is of critical importance to you. You may also choose to trade in your old gearbox, which Kalmar will then refurbish and re-sell.

#### **Contact**

To find out more about refurbished gearboxes from Kalmar, please contact your local Kalmar representative or send an email to:

[kalmar@kalmarglobal.com](mailto:kalmar@kalmarglobal.com)

Kalmar is the industry forerunner in terminal automation and in energy efficient container handling, with one in four container movements around the globe being handled by a Kalmar solution. Kalmar is part of Cargotec.
